In this edition

This week we reveal our partnership with the huge football event Grassroots Football LIVE, one of the world's largest gatherings of football managers, coaches and players and attended by thousands.

We also look at this year's Leaders in Football business event, attended by key senior executives in world football and also telecommunications company Relay Station, who will be in attendance with a fantastic opportunity for clubs to take advantage of. Also, new sports drink Soccerade continues its emergence into the UK market as it wins over the ladies.
